TOEIC: 800/990

INTERESTS

Cycling · Running · Gym
DIY · Reading

STRENGTHS

- Rigorous & Detail-oriented
- Passionate about learning
- Adaptability & Creativity

EXPERIENCE

Fullstack Engineer — Demand Platform Team — Core Lane

Teads • Montpellier

October 2025 — Present

- Contributed to the core frontend architectural migration from legacy Angular to a modern React stack.
- Significantly improved Developer Experience (DX) via enhanced tooling and comprehensive documentation.
- Drove team productivity increase through the strategic implementation of AI development tools.
- Maintained stringent high code quality while managing and integrating external code contributions.
- Accelerated complex feature development by pioneering the use of advanced AI coding assistants (e.g., **Cursor**, **Claude**).
- **Technologies:** React, Angular, RxJS, Redux, Node.js, Scala, Github CI

Fullstack Engineer — Publishers & Operations Team

Teads • Montpellier

July 2021 — September 2025

- Engineered and sustained the Teads Publisher Interface, granting access to revenue and inventory data.
- Automated the reporting of advertising campaigns and optimized campaign generation predicated on identified sales opportunities.
- **Technologies:** Node.js, Scala, React, Next.js, Docker.

Frontend Engineer — Core Team

Frog (Molotov.tv) • Montpellier

March 2020 — July 2021

- Developed applications for connected TV platforms including Xbox One/Series X and Panasonic (HbbTV).
- Implemented a Design System and performed technical audits in collaboration with TV manufacturers.
- **Technologies:** Vue.js, Video Streaming, Agile methodology.

iOS Lead Developer

Frog (for Capgemini) • Montpellier

September 2019 — February 2020

- Collaborated closely with designers on the design, and led the development and deployment via the App Store of Capgemini's internal sales force iOS application, a sophisticated, unified platform intended to centralize all Capgemini products and efficiently manage mobility requirements.
- **Technologies:** Swift, RxSwift, Design System

EDUCATION

Engineering Degree in Computer Science

Polytech Montpellier · 2015 — 2019

Preparatory Cycle (PEIP)

Polytech Marseille · 2013 — 2015
